

## Ph.D Summer School on European Industrial, Innovation and Trade Policy in the Era of Strategic Autonomy a.y. 2023/2024

In the current geopolitical scenario defined by stark challenges and the rapid evolution of global economic dynamics, the concept of open strategic autonomy, championed by the European Union, underscores the imperative for strategic independence and at the same time allows the EU to remain open to global cooperation and competition. As Europe navigates this multifaceted landscape, the integration of diverse perspectives from innovation studies, international economics, and industrial policy becomes essential.

To provide the necessary training to Ph.D Students and early career researchers, the Jean Monnet Centre of Excellence on European Inclusive Open Strategic Autonomy (EU-IOSAC) at the Luiss Institute for European Analysis and Policy (LEAP), in partnership with the University of Strasbourg and UNU-MERIT in Maastricht, has organized the **Ph.D Summer School on European Industrial, Innovation and Trade Policy in the Era of Strategic Autonomy**.

To conclude the Summer School you are invited to attend the **“Global value chains in Europe” EU-IOSAC Inaugural Workshop** that will be held on Friday June 7<sup>th</sup> starting from 9:00 A.M at Luiss Campus in Viale Romania in **room 203 – Aula Toti** ([see the workshop programme](#)). At the end of Workshop, students will receive the final diploma.

Classes will be held Monday-Thursday at the Luiss Campus in Viale Romania (Viale Romania 32, 00197, Rome). All classes will be held in **room T03**.

Participants can access Luiss canteen for lunches and dinner at their own costs.
